DIGITAL MARKETING AGENCY IN CYPRUS

We build websites & marketing systems that generate leads.

Everything your business
needs to grow online.

We connect strategy, web design, SEO, advertising, content and CRM to attract the right audience and turn interest into qualified enquiries.

ONE TEAM.

Design.
Marketing.
Technology.
Production.

WHO WE ARE

A digital partner built around your business.

We are CREATE, a Cyprus-based digital agency helping businesses attract customers, generate enquiries and grow online. Our team brings strategy, design, marketing and technology together around your business goals.

Start with one service or a connected programme of support. We bring the right skills together, keep communication clear and stay involved as your business grows.

8+

Years' experience

50+

Clients

100+

Projects

Strategy first

We start with your goals, customers and market before recommending the work.

One connected team

Websites, marketing, content and systems are planned to support each other.

Long-term support

We stay involved through maintenance, reporting and ongoing improvement.

HOW WE WORK

01

Listen

Understand your business and goals.

02

Plan

Define the services, scope and priorities.

03

Create

Build the website, content and systems.

04

Refine

Review the work and fine-tune the details.

05

Grow

Launch, support and improve over time.

BASED IN CYPRUS. WORKING LOCALLY AND INTERNATIONALLY.

OUR SERVICES

Everything your business needs to grow online.

Choose the service you need today, or combine our capabilities around a wider business goal.

01

Web Design & Development

Websites, redesigns and landing pages that explain your business and turn visitors into enquiries.

02

SEO & AI Visibility

Technical SEO, useful content and local visibility across Google, Maps and AI search.

03

Paid Ads & Lead Generation

Google and Meta campaigns with clear targeting, landing pages and conversion tracking.

04

Content Creation

Photography, video and drone content for websites, advertising and social media.

05

CRM Systems & Automation

Connected lead capture, organised sales stages, follow-up workflows and reporting.

06

Hosting & Maintenance

Managed hosting, security, backups, updates and reliable technical support.

OUR SERVICES / 01-03

Build your presence. Reach the right people.

01 Web Design & Development

Websites built around your brand, your customers and the actions you want them to take. Designed to work clearly across mobile, tablet and desktop.

Strategy & UX · Website design & development · Landing pages
Website copy · Forms & bookings · Multilingual content · Integrations

02 SEO & AI Visibility

Help the right customers discover your business with technical improvements, search-led content and a clear local and AI visibility strategy.

SEO audits · Keyword research · On-page & technical SEO
Google Business Profile · Local SEO · Articles & content strategy

03 Paid Ads & Lead Generation

Reach potential customers through focused Google and Meta advertising, connected to the right offer, creative, landing page and enquiry journey.

Campaign strategy · Google Ads · Meta Ads · Creative testing
Landing pages · Conversion tracking · Reporting & optimisation

OUR SERVICES / 04-06

Create the content. Connect the business.

04 Content Creation

Photography, video and drone content planned for your website, advertising and social media, with production coordinated from brief through to final delivery.

Photography · Video & reels · Drone · Editing & post-production
Social media content · Casting & production coordination

05 CRM Systems & Automation

Bring enquiries, contacts and follow-ups into a system shaped around your team. Make every opportunity easier to capture, organise and act on.

CRM setup · Lead-source integrations · Custom sales pipelines
Email & task automation · Dashboards · Team training & support

06 Hosting & Maintenance

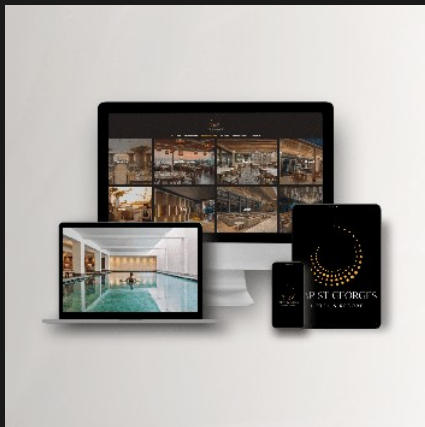

Keep your website secure, stable and supported with technical care from a team that understands how the site and its integrations work.

Managed hosting · SSL & domain configuration · Website updates
Backups · Security & performance monitoring · Technical support
